Table of Contents

As employers in the construction industry, specific standards are found in the Construction Safety Orders (CSO), Electrical Safety Orders (ESO), Tunnel Safety Orders (TSO), and Compressed Air Safety Orders (CASO) of the various federal, state and local jurisdictions where we operate. At project sites or during activities for which no specific safety orders exist, the General Industry Safety Orders (GISO's) apply. For additional assistance, contact your Division or Regional Safety Manager.

Section 1	General Safety Provisions	
	Policy Statement	1.1
